Xamarin Mobile & Web App Developer

PROFESSIONAL SUMMARY:

o   Software Professional with 3 plus years of experience in end-to-end development of software applications from requirement analysis to system study, designing, coding, testing, debugging, documentation, and implementation using Mircosoft.Net Technologies.

o   2 years of experience working among technologies such as **Xamarin iOS**, **Xamarin Android** & **Cross-platform** Applications.

o   Strong in creating user interfaces using Android SDK, iOS SDK, and also in using **Xamarin. Forms** for designing **UI** using APIS and **XAML** with different available **layouts** and **controls.**

o   Web application development experience in Laravel architectures using PHP 8.00 with master and content pages.

o   Good working knowledge of web development technologies like **HTML**, **CSS**, **AJAX**, JAVASCRIPT, **J Query**, and **XML**.

o   Strong skill in mobile design, including work with **C#, .NET**, automated testing, issue tracking, and source control tool **TFS**.

o   Hand-on experience in requirement gathering, analysis, system modeling, design, and development of Laravel client-server application architecture.

o   Proficient in the use of both structured and object-oriented systems analysis, design, development tools, and techniques, and Experience and understanding of **OOP**.

o   Professional experience in Software Project Management, Data and Statistical Analysis, and Quality Assurance Process Management. Created Inbound and Outbound WCF Servies / Web Services. MSMQ has been created to integrate with email clients and support applications.

o   Collaborated with **UI / UX** team developing wireframes and prototypes using various 3rd party tools like **Figma**.

o   Responsible for developing mobile applications for both **Android** & **iOS** using **Xamarin** and **visual studio 2019** in C#**.**

o   Strong in the complete **Software Development Life Cycle** (SDLC) including requirements definition, design, programming/testing, and implementation of major and involved development and deployment of many client/server systems.

o   Extensive knowledge of Microsoft .Net Design Patterns including Dependency injection (DI), Inversion of Control (IO), Singleton, **MVVM** (Model-view-view-Model), and **MVC** (Model-View-Control).

o   Team Player, maintained client/customer relationships by providing timely, quality products and services, understanding the requirements of client/ customer needs, and trying to put maximum effort into delivering quality products with customer satisfaction.

TECHNICAL SKILL:

o   **Programming Language:** PHP, C#, JavaScript, and SQL.

o   **Web Technologies:** ASP.Net, XML, Web Services, HTML, CSS, J Query and XML.

o   **Development & Testing Tools:** ASP 3.0, ADO, MVVM, MVC, and LINQ visual studio Code.

o   **Documentation and Design Tools:** visual paradigm, Start UML and Figma Software.

o   **Mobile technologies:** Xamarin Form, XAML, Could Computing SmarterASP.Net storage (Table, Blob, Queues).

o   **Front End Tools:** Visual Studio 20190/2017 Visual studio Code, 7.0

o   **RDBMS / Database:** MS SQL Server 2014/2012, and Xamp MySQL.

o   **Operating System:** Windows 2010/2008/2007, Vista

PROFESSIONAL EXPERIENCE:

Xamarin Mobile Developer
 [Cargo Tracking Application April-2022 – Now]
 [Order Taking - Captain View Jan-2022 -March 2022]
 [Student Management System April-2020 – Aug-2020]

o   Responsible for all the phases of software development life cycle (SDLC) using .net Technologies.

o   Responsible for gathering business requirements, design, and implementation.

o   Responsible for building mobile applications using **Visual Studio 2019/2017.**

o   Created top Level View for **Xamarin. IOS** & **Xamarin. Android.** Maintained a unique look and feel across the application**.**

o   Implemented core components in C# that handle business logic.

o   Wrote LINQ queries to retrieve data in-memory objects & implemented Lambda expressions in the LINQ query method.

o   Responsible for writing SQL queries, prepared statements, stored procedures, views, and triggers in SQL Server.

Xamarin Mobile & Web App Developer

o   Used **ASP.Net Framework 4.6.0** for backend data to get the desired **JSON** data.

o   Experiencing JSON validation for the syntax check.

o   Responsible for bug fix, Enhancements, Designing, Impact analysis & lessons learned documentation.

o   Experienced with Test Driven Development (TDD) approach for development. & Experienced with n Unit for Unit Test mocking. Developed and implemented appropriate exception handlers.

o   Performed unit testing, debugging, and rigorous problem-solving.

o   Experiencing in creating use case diagrams, writing code, writing test scenarios, performing unit and integration testing, production support, and preparing documentation.

CORE COMPETENCIES:

❖   **MCS** in Computer Application from Islamia College University Peshawar, Pakistan. **2016-10** to **2018-08**.

❖   **BSC in** Computer Application and Double Math, University of Peshawar, Pakistan. **2014-10** to **2016-09**.

o   **Sex Status: Male - Single**

o   **Nationality: Pakistani**

o   Languages Known: English, Urdu, Pashto, and Arabic.
