

## COVID-19 Test Certificate

Patient MRN	4226754	رقم المريض
Name	MOHAMMED SULAIMAN ALHUZANI	الاسم
Gender	Male	الجنس
Date of Brith	28/12/1983	تاريخ الميلاد
ID Number	1085803508	رقم الهوية
Nationality	Saudi	الجنسية
Phone Number	0593997464	رقم الاتصال
Collection Date	20/02/2022 14:40 (02:40 PM)	تاريخ أخذ العينة
Result Date	20/02/2022 17:39 (05:39 PM)	تاريخ النتيجة
Clinic	COVID 19 CLINIC	المركز

Infected (Positive)

مصاب (إيجابية)

**Sample Type:** Nasopharyngeal swab

نوع العينة مسحة أنفية بلعومية او حلقيه بلعومية

This is to certify that the above mentioned patient has undergone testing for 2019 - nCov at Dr. Sulaiman Al Habib Hospital utilizing the state of the art specific and sensitive Nucleic Acid Amplification Techniques; NAAT/ Real Time Polymerase Chain Reaction; RT-PCR. The viral genes targeted are E, N, and RdRp/ORF. The sample was collected using a nasopharyngeal swab and viral RNA was extracted and subjected for testing to confirm the presence of the known gene sequence/s of SARS -CoV -2 Virus in the designated samples.

The hospital Laboratory after performing the necessary analysis on the collected sample hereby certifies the authenticity of the below mentioned swab date, time and result for the above mentioned patient.

HMG Laboratories are accredited nationally by CBAHI and SFDA, and internationally by CAP, AABB and JCIA.
