

## Education Skills

**Bachelor degree in computer science.**

**One year diploma information technology (DIT Computer Science)**

**6 months certificate of computer**

**3 months of certificate of SQL SERVER (Database Management System)**

**Over 11 Years of experience in Computer Science field Such as Programming, Scripting Languages, Database Management System and Operating System (Windows server and client OS).**

**Work as a Microsoft Dynamics AX – Techno/Functional Consultant (Without vendor support)**

- **Over 4 years of experience in ERP Business Solutions using Microsoft Dynamics ax 2009/2012 R3.**
- **Installation and configuration of Microsoft dynamics ax as well as preparing domain and environment for dynamics ax Report server installation and configuration for ax.**

**ERP which has development, support and enhancements, vertical development, implementations, production support, configuration Management, Build, Deploy and unleash Management for Microsoft Dynamics AX 2009 AX 2012 R2 & R3 conjointly within the areas of Strategy designing, Finance, Supply Chain Management(SCM), Trade and logistics, Master Planning, Production and HR & Payroll(Functional Area) as well as AX Technical (development Reports and form customizing standard forms and Reports).Further, work on Administration area(installation of Microsoft Dynamics ax ERP, Adding users from Domain and apply security polices such as roles, privileges and permission etc.) , Solutions Architecting & Delivery and IT Services.**

**Having working experience in modules like: General Ledger, Account Payable, Accounts receivable, Fixed Assets, cash and bank management, budgeting, Master Planning, Product information Management, Procurement & Sourcing, sales and marketing, Inventory Management, production Control , System Administration, Organization Administration, Data import Export Framework, Human Resources and Payroll for specific nations.**

- Expertise in Dynamics AX technical skills with ability to translate functional requirements into technical solutions.
- Significantly worked **on AX2012 SSRS**. Worked on query and Report Data Provider (RDP) base Reports.
- Concerned in complete existence cycle implementations beginning from analysis, layout, testing, **go-live & publish** implementation guide.
- Create and Customized Forms for different Departments.
- Prepared documents for functional consultant such as SOP and validation documents for Microsoft dynamics ax.
- A self-motivated and quick learner who is willing to adapt to new challenges and technologies.
- An effective team player with excellent problem solving and interpersonal skills.

### **Work on Dynamics AX Technical (development)**

- VAT implementation on Purchase confirmation Report for **procurement department**(Customized Standard Report in Procurement and sourcing Module )
- VAT Implementation on Sales invoice Reports for **finance department** (Customized Standard Report in AR Module)
- Developed a new Report to print GL Module voucher **finance Department**
- Developed a new Report to print AR Module voucher for **finance Department**.
- Developed a new Report to print AP module voucher for **finance Department**

- Customized Certificate of analysis(COA) Report for **Quality Control department**( Customized Standard Report in Inventory Module)
  - Customized Physical inventory by physical dimension Report for **Warehouse Department**.(Customized Standard Report in Inventory Module)
  - Customized Goods Receipt Note(GRN) for **Warehouse Department**
  - Developed new Reports for all departments.
  - Coded major and minor modifications in **X++** using best practices to allow for simplified future upgrades.
  - Extensively worked on **AX database** restore and re-setting the configuration after the restore.
  - Developed new reports as per the client requirement etc.
  - Implement and customize several operational and **financial, inventory and manufacturing reports**.
  - Analyze those instructions which are taking more time & will optimize them using **X++** code or by enhancing the **SQL** statement.
  - Designed and monitored software performance tests on new and existing programs for the purposes of correcting errors, isolating areas for improvement, and general debugging.
- 
- Used breakpoints and **Dynamics AX Debugger** Windows i.e. variable window, watch window and output window to observe the call stack and thus analyses the flow of control between classes
  - Administered critical analysis of test results and deliver solutions to problem areas.
  - Created various elements from the **AOT (Application Object Tree)** like **Tables, Extended Data Types, Views, Forms, Parts, Data Sets, Base Enum, Macros ,Maps ,Classes, Queries, SSRS Reports , Jobs(for testing code )and Menu Items** as and when required during the flow of the project.
  - Expertise in creating Custom Lookups by using **X++**
- 
- Defined **various reason codes** in **DAX** environment to meet the compliance requirements of the auditors and Managers.
- 
- Worked in requirements gathering from users, Scoping existing system and Preparing functional & technical design
  - Hands-on experience in migration from MS Dynamics AX 2009 to AX 2012
  - Knowledge on AX Installation on Server and Client Machines
  - Worked on Security(Roles, Privileges and permissions)

**Work on Dynamics AX Functional Area, knowledge of finance, inventory management, production control, HR and payroll as well as Knowledge of Master Planning Module.**

- VAT implementation
- Defined and wrote functional requirements that provided implementation guidance for both the user interface.
- Assisted in the creation and documentation of business processes and module configurations
- Posting profiles configuration **in AP and AR modules** as per business process
- Created Journals in **DAX 2012** and set up the approval system as required by the client.
- Set up different **bank groups**, setting up cash and **bank parameters, checks** and transaction types
- Configured and setup the AP procedure of the business concern, experience varies from creating payment Schedule, term of payments, payment methods to set up the cash discount procedures and posting profiles.
- Setting up and maintaining Accounts Payable, managing vendor information, vendor management, and vendor master and supporting data, tax related configurations.
- Configuring vendor invoices, setup accounts payable invoice matching, configuring vendor payments, vendor payment formats.
- Setup fixed assets groups, setup fixed asset posting profiles, general ledger parameters for fixed assets, and fixed assets inventory items.

- Setting up **Fixed Assets, acquisition, Revaluation and revaluation groups**, fixed asset reserve, fixed assets integration, assets created from accounts payable, setup fixed assets and Accounts payable integration
  - Worked on creation of invoice, creation of invoices from purchase orders, invoice matching and intercompany purchase orders.
  - Configured **General Ledgers (GL)** in Dynamics Ax 2012, defining different currencies in company and required exchange rate set up.
  - Responsible for Inventory management, generating purchase orders and sales orders, Procurement and sourcing, Quality Management in Trade and Logistics.
  - **User Acceptance Test** for Trade and Logistics modules and teaches the key and final users.
  - Designed Purchase life cycle and Sales life cycle.
  - Designed Product Information Management, Procurement and Sourcing.
  - Designed Sales and Marketing and **Inventory and Warehouse** Management.
- Worked on **Production modules** like Creation of production orders and batch orders, Subcontracting, Production Bill of Materials, BOM line type, formula, formula line type, Production status, financial integration.
  - Go Live & Post Go Live Support and Preparation of Functional Requirement Specification (**FRS**) document for Development Team.
- Setting up **WIP structure**, creating and enabling validation and Worked on Security and configuration.
  - Preparation of **Function Design Document (FDD)** for Standard Processes.

#### **Knowledge Areas:**

**ERP:** Microsoft Dynamics AX 2009, Microsoft Dynamics AX 2012, R2, and R3

**Operating System:** Windows server 2008 R2, Windows server 2012, Windows 7/8/10/XP/vista.

**Programming:** X++, C#, C, C++, GW Basic, SQL and Java

**.Net Technology:** .Net Framework 2.0/3.0, Web Form, Win Form, ADO.Net

**Web Technology:** ASP.Net 2.0, ASP, CSS, HTML, DHTML, XHTML, JavaScript

**Sql Server BI Tools:** SQL Server Analysis Services (SSAS), Reporting Services (SSRS), Integration Services (SSIS).

**Development Tool:** MorphX, MS Visual Studio, Eclipse and Net Beans.

**Database Management systems:** Microsoft SQL Server 2008/2012/2014, Microsoft Access ... Oracle 9i/10g/11g

***I am member of Microsoft dynamics 365 community Forums, where I received 2 awards:***

***The First Award is as problem solver, I resolved many problem for others giving right suggestions***

***The Second award is Level 2 this was given to me for writing blogs and articles on development, administration as well as on functional side. First, I received Level 1 after that Level 2.***
